

# The Covenant of the Goddess issue a statement on the violence at the U.S. Capitol.

January 17, 2021

FOR IMMEDIATE RELEASE

**Anaheim, CA:** The Covenant of the Goddess is stunned by the violence at the US Capitol on January 6th.

We are disappointed by the lawless actions of individuals that undermine the peaceful transition of power in the world's most mature democracy.

We are reminded that above the US Capitol is a bronze statue originally titled, "Freedom Triumphant in War and Peace" who's head is circled in stars as being the manifestation of the goddess Libertas.

We acknowledge the loss of life on that day and our sympathies go out to their family and friends. Additionally, we honor the lawmakers that serve freedom and liberty and the brave individuals who have and are currently shielding the US Capitol.

We hold them all in protection.

**So Mote It Be.**
